### What We are Learning

Language Arts: We learned about ending words with -LE this week with our first multi-syllable spelling words. We also wrote some opinions about our favorite season.

Math: We introduced dimes this week and used them to practice counting by 10s. We also learned about telling time to the hour. Figuring out the difference between the minute and hour hand is still a bit tricky for these first graders.

Science/ Social Studies: We learned about weathering on Monday by making our own sand. Then we moved on to a history unit and talked about comparing the past to the present.

Religion: We are starting a chapter on the trinity and have also been using our religion time to think the many things we can thank God for.
